 General of Lord Salisbury Marked by  
 Simplicity—King and Queen Sent

London, Sept. 1.—The body of Lord Salisbury was interred yesterday afternoon beside that of his wife in the burial ground of the Cella, at Hatfield. The arrangements were of the most private and simple character. All the children of the deceased were present, as were also Premiers Salisbury, Lord Selborne and a few intimate neighbors. Otherwise the mourners were made up of the deceased statesman's tenants, retainers and inhabitants of Hatfield. The coffin was carried to and from the parish church

The only floral tribute on the coffin was a wreath sent by Queen Alexandra. Other wreaths sent by the King of Portugal and others were used to decorate the graveyard. The Archbishop of Canterbury officiated at the funeral service.

Attached to the Queen's wreath was a card bearing the words: "To the memory of Lord Salisbury, universally loved and mourned as one of our old servants."

The King sent a wreath with the words: "As a mark of deepest regard, greatest respect and sincere friendship."

Simultaneously a memorial service was held in Westminster Abbey, which was attended by representatives of King Edward, Emperor Wil-

A remedy must combine the most effective and it must be prepared with such care and skill as to leave no possible element of uncertainty. The result of such study and care is known as "Bu-Ju." ### TIMELY TOPICS.

Another leaf of the calendar has fallen. Here we are in the eighth month again.

Com. gen. William Henry, got ready for school.

"I may interest you to know," says Dr. Ross, "Medical Health Officer," that influenza is the healthiest city in Ontario, if not in Canada.

A short line ago Mayor Graham, asking as to the amount of typhoid in this city, I telegraphed all the doctors and found that there was only one case of typhoid, and that was in a private practice.

There are three cases in the hospital, but they were all brought in from outside places. And another thing, we have been singularly free from contagious diseases in 1902 there was only one case of contagious disease in Belleville. In 1903, so far, we have not had one single case.

The above statements may cause some people in this city to open their eyes in astonishment, but there are the facts, and so Mayor Graham used to say, just tell them out. And if the people of this beautiful city are so healthy now, it makes a fellow wonder what would become of them if we had a general sewerage system and a public bath? Why, the people wouldn't die at all; they'd dry up and blow away.

Why don't they go down at Sandy Hook fish and have done with it?

The lawn how friends must feel grateful for all that rain lately. It gave them a real city to open their eyes in astonishment, but there are the facts, and so Mayor Graham used to say, just tell them out. And if the people of this beautiful city are so healthy now, it makes a fellow wonder what would become of them if we had a general sewerage system and a public bath? Why, the people wouldn't die at all; they'd dry up and blow away.

BY THE DREAD OF PUBLICITY

## BY THE DREAD OF PUBLICITY

Fair-minded Canadians may well think themselves, as did Sir Wilfrid Laurier place himself in a somewhat similar position, by not wishing to agree to the publication of a full report of the proceedings at the Colonial Conference last year. Publicity, everybody knows, is the best safeguard against error. Why, then, did Sir Wilfrid demur to the publication of the proceedings of the conference? It will be remembered that the Canadian Premier recently asked the Colonial Premiers who attended that conference if they would consent to making public what transpired at their meeting, gathering, or conference. Sir Wilfrid would not. Why would not has not been explained. The Premiers of Australia, New Zealand and Natal were willing that full publicity should be given to the proceedings. Why was not Sir Wilfrid equally willing that it should be so?

the publication of the proceedings was only meant to satisfy idle curiosity then there might be some excuse for Sir Wilfrid's refusal. But it was not. There was a general desire throughout the Empire, as pointed out by the (Winnipeg) Telegram, that everything should be made public in order that people should be able to argue for themselves, and form their judgments on the positions taken by the several colonial delegates on the various subjects discussed. The question of inter-Imperial preferential tariffs was discussed at the conference; and, it was highly desirable that everyone should know the positions taken by the Mother Country.

## My Newspaper

My newspaper depends upon its reputation for giving all of the news, rather than upon the tricky device of startling headlines to gull the thoughtless. Therefore, it does not think it necessary to begin every important article on the first page.

Before I discovered my newspaper, I used to become very irritable at the breakfast table. I would begin a piece of news, read down the column, and find its formula, "Continued on page three." Then I would refold the great sheet.

and it upagelint the water-pitcher, and read a dozen lines to the end. Turning back to the first page, I would begin another article and soon come to a stop with the words, "Continued on page \_\_\_\_." This time I would rumple the paper considerably as I hunted for the answer. About the third time, I would say to my wife, "What is the matter with this coffee? I never drank such vile stuff before in my life."

We killed a man at our club the other night, and he was a good fellow too.

the most brutal assault upon him. The

 prospect of a new war?"

the daily newspaper was a very good  
 ax to what the people were interested

and we ought to get our subjects in the press. Well, to be brief, he carried his point revolutionized the club. I will give you of the topics that I hear have given rise to discussion: "Who began the row at Flynn's saloon?" "The naked facts of the Jonesbury divorce case." "The art of padding for scrawny built women." I tell me the meetings are very full

An Unhappy Woman.

"Mary Queen of Scots was a most un-

man of a friend in the train the  
day.  
"Indeed she was," replied the other  
calmly.

When Elizabeth was also far from

cluded the thin man, "that the name of  
the happiest woman in the world does  
appear in history. Now I've got a

in-law named Martha Tabbs, and at present she is the most wretched on the face of the earth."

But, you see, last week her husband bought her a two-guinea hat—and I suppose the two-guinea hat her more unhappy than Mary of Scots was, when she discovered her neighbor had one costing five!

It was not it at all. She was as  
as a skylark in a June meadow

time she can wear it, it will pro-

## OAK HALL

Sole Agents for Sanfords Celebrated Clothing.

poor old Golden Smith has been critical and malcontented by thousands in his time, and has gone safely on his way, rejoicing. But to be praised by the Daily Freeman's Journal! That is, as Arthur Ward says, a very "snatch." The breaking of G. Smith may be looked for at any moment now.

(LONGEST, DULTEST, MOST ODDLY.)

The present session of Parliament is the longest in the record. It has this been on the 2nd of March, and therefore to be one of the most costly. The country is harping what central it is, affairs by men who have no business power any more.

Mr. Thomas Lyle, it is said by a D. S. paper, is the most popular Britisher ever seen in this country. Of course, the Yankees don't love anybody they can lick. And vice versa. That's the reason they've been running down and trying to coerce Canada ever since 1812.

The article in another column, showing reinforcement of the great Methodist Conference which took place in this city twenty years ago, will be very interesting to read, not only by those who remember the event, but by younger people, who will see by the same article, that the present Methodist Church in Canada is almost a phenomenal growth. The experience of twenty years goes to show that the truth of the old saying, "the union there is strength," has been amply borne out in the case of the Methodists.

WHAT PEOPLE ARE SAYING. That certain machinery at the Gas Works, in which the city has a large interest, is being spoiled by water dripping on it through a leaky roof.

That the north side of the City is clock ticks repeating. The figures can hardly be seen, especially at night.

That Labor Day will find many Belleville boys doing hard labor on the Toronto fair.

That many in the city would have been pleased to see arrangements made to have the Oldsters' band play here. They play in the fifth place the past three years, yet give Belleville the snub.

That someone is fairly plentiful just now, and many people will take early morning walks looking for them, but be sure you have the "snatch" first. The snafu-pals when in doubt, is to try some on our snafu.

## A REDUCTION DUE.

FARMERS' SONS' PLEA FOR REDUCED PASSENGER RATES.

Farmer's Son. The number of passengers on the Grand Trunk and other lines has increased from thirteen and a quarter millions in 1901 to twenty and a quarter millions in 1902.

The number of tons of freight carried has increased in the same time from twenty-one and three-quarter millions to forty-two and a quarter millions.

The increase in revenue has been in the same time from thirteen to twenty-one millions dollars. The business of the roads has therefore increased more rapidly than the mileage of the same has been extended.

The fact given present an average of 1000 per cent. reduced freight rates and for reduced passenger rates of 50 per cent. arrived when in Old Canada, at passenger rates of 100 per cent. present passenger rates should be reduced to 50 per cent. of the present rates, when traffic was nothing but what it is today, and there are three, four and five times what it is today.

## SNAP IN BOYS' MIND.

We have just passed in stock at the Oak Hall a large shipment of boys' all wool tweed suits, in black, double-breasted coats, in a very nice style, and at a very low price. If you want the very best boys' suit value, you get it at the Oak Hall.

It's quite a distinction to be able to say you haven't been to the Toronto fair this year.

It is stated in Toronto that Mr. J. F. Roy, M.P. for South Toronto, has again been offered a High Court Judgeship by the Laurier Government. Mr. Roy, when asked, would neither confirm nor deny the report. It is pretty safe to say that Laurier and his friends

in making that offer to Mr. Roy, do not expect to advance the best interests of the country. They would, however, like to spite the jaws of Mr. Whitney's absent friends, but Mr. Roy refused the offer, and will not, probably will again.

The Empress of Germany was stunned by a large bouquet which was thrown at her. Perhaps there was a brick in it intended for the Emperor.

It is noted in Montreal, that the prejudice against a Canadian is dying out. The habitants learn slowly, but they learn, just the same.

The Recorder in London, England, a telegram says, released a convicted criminal on condition that he

go to Canada. He probably thinks that had a future as a member of the Grit political machine. Mr. Andrew Carnegie wants to take the battle on with him. He has been so successful in his fight with the Rockefeller family.

There was something peculiarly appropriate in the fact that Sam Parks, the "walking delegate" convicted of swindling, rode in a white horse at the head of a trade union procession in New York.

The Good Book, that is, the Bible, is said to be a "gilt book" in placing themselves on record as a sign of their loyalty to the nation. New York labor men are signing their own death warrant.

The current issue of Bradstreet notes the fact that the Iron and Steel Company of Canada, Limited, with headquarters at Belleville, has given a mortgage to Mr. J. F. Roy, the amount named being \$250,000. The same issue states that the Iron and Steel Company of Canada, Limited, has obtained its charter.

Hamilton politicians have been fined \$15 each for putting formaldehyde in their milk. No wonder the Hamilton newspaper men don't drink milk.

WELL, WOULD'N'T THIS—YOU ROYAL COMMISSIONERS! ROYAL COMMISSIONERS are not regarded as irregular or improper in Great Britain. The "Royal Commission" on the War was as officially appointed as any other. The report of the committee was the central figure.

No less than 133,054 people patronized the free swimming baths in Canada.

**Oysters.**  
The finest oysters available, 50¢ per dozen.

**J. ARTHUR MARSH.**  
P. R. W. want to hire a boy as a signaller with the daily making trade.

During the past summer, the returns for Belleville are not made, but they were probably a little less than the Toronto figures.

"Blue-plums at ten cents a peck" says the Standard. The price of blue-plums is a little less than the Toronto price, is cheaper than stealing them.

We note that meetings of the Board of Trade and Board of Education are called for the same time and place, namely, to-morrow night, in the Council Chamber. It is learned that the Board of Trade will change its place of meeting to the City Hall.

It will be well, before the Board of Trade meets, to see what the Board of Education has to say. The Board of Education has been asked whether or not the Council Chamber should be occupied to-morrow night.

The weather this afternoon was a fair imitation of the good old, etc. This afternoon, aromatic smell, telling eloquently of tomato soup, was wafted from many a kitchen.

The Board of Trade, to-morrow night, should do something to start the ball rolling in connection with the Old Boys' Reunion in Belleville in 1904.

**FORMER RESIDENT DEAD.**  
WILLIAM GIBBERSON PARKER, AWAY IN UTMAR HAITIES.

The Old Boy's Reunion committee records the death of a former resident of this city.

William Gibberson died at St. Luke's hospital, where he had been under treatment for some days, at 2 o'clock this morning. He was 70 years of age. He was a native of Scotland, and was a member of the United Brotherhood of Carpenters and Joiners of America.

Mr. Gibberson has been ill for some time. He was a member of the United Brotherhood of Carpenters and Joiners of America. He was a native of Scotland, and was a member of the United Brotherhood of Carpenters and Joiners of America.

William Gibberson was loved and respected by all who knew him. He believed in and practiced the golden rule with Christian spirit and his death will be mourned by a large circle of friends.

**UNVEILED MONUMENT**  
TO DECEASED BROTHER.

WOODMEN OF THE WORLD held a unique ceremony last Sunday.

At noon on Sunday last an unique and interesting ceremony took place at the Woodmen of the World building, Toronto, at the unveiling of a monument erected by the Woodmen of the World in commemoration of the late Frank Sherman, who was killed at Toronto some months ago.

White. They sometimes do the duty of plain cloth in the between seasons and do duty on chilly days. The pattern always has a check dress in her wardrobe.

A dress of this description should be tailor made, decorated perhaps, but at the same time neat and useful, with a skirt neither too short nor too long. A charming model was made with an awl box pattern on the hips, down the front and in the back of the skirt, with a skirt just to clear the ground. The blouse below it was also plain with a shoulder piece of very coarse Italian lace and some incrustations of black velvet. The waistcoat was of tulle, and there was a small piece of tulle on the back of the skirt. The cut shows a costume of spotted crease, with a box pleated below trimmed with embroidery and tassels.

## FASHION NOTES.

New York—Long Flannel Sleeveless Sweater.  
 Nothing is smarter at French winter than the new wide neckline, trimmed with red and white carnations and their own foliage. They also give a lighter effect to the heavy cloth frocks with which they are sometimes worn.  
 Tulle silk is being revived, but as a rule it is more practical than becoming. It is very popular for dust coats and useful traveling frocks, for it is inexpensive and wears and washes well.  
 Immensely long flooring sleeves are a feature of nearly all the smart even-

ing gown. A gray muslin dress with a wide neckline was trimmed with white of the palest mauve velvet. The corsage was finished with the long flannel sleeves edged with their ribbon of chiffon. It is a matter of course when these flannel apparels come straight from London, they start from a close fitting bodice and end in a full skirt. The skirt is a softer fancy darts that they disposal they always smart and pretty.

Some of the new hats in clip are turned up sharply at the sides toward the back, where they are simply trimmed with a bow of black velvet and perhaps a touch of feathers. These are smart and at the same time serviceable, for there is nothing on them, if the feather be omitted, to get pulled by wind or rain. A favorite hat has again come into favor. It is called the "Bell Top." It is very large, takes most becoming lines and is trimmed with beautiful feathers coming out all round from the crown and just extending the brim.

The illustration shows a toque of black straw trimmed with two wings. JUDIC CHOLLET.

 - The consensus of opinion in this city, except in the case of the municipal institutions, seems to be that the city should do all in its power to ensure that the city works on a sound footing. The Hundred Million Dollar question is expected to be presented in the coming year, which will be something to be thankful for.

### TIMELY TOPICS.

Hot! Hotter! Hottest!!

It begins to look as though we are hot, from the inside a little too early.

At present phenomena have once more become exceedingly popular.

If it is kind of weather, keep on with what you are doing.

However, we must expect that weather when people will play "Hiss-wha" and "Under the Bamboo Tree".

It must certainly be admitted that the Quincey Adams Sawyer Company, as they appeared last night, were a lot of warm people.

The Stoney Lonsome Philosophers were by no means in the mood to be philosophical.

The chances are they are battling in perplexity, though their speeches will probably be dry.

Mr. James McCurdy, City Engineer, has worked for the corporation thirty years and has never been found fault with before. Which is an exceedingly good record, and much to be proud of.

A wholesale message from the Chief states that he has adopted the fashion set by King Edward the eighth, a real revolution. He is to wear a real beard.

He has joined in several hantle parties over there, but have not yet taken time. Why, you might travel. For work and not a war.

He is not a thing, but a person. He is the Chief, who is to be seen at the Belleville Hotel again about the 15th of next month.

MUSLIN AND LACE GOWNS.

Pale Green Muslin is Very Smart, Elaborate Style.  
Muslin and lace gowns really deserve a page to themselves. A pale green muslin has bands of orange nou-grass on it and is a complete mass of lace, shirtings, etc. A very charming addition is a pocket of handkerchief lace, lined with silk fringe. The waist of this frock is enriched by a band of orange nou-grass, although it does not sound like

WHITE MULL GOWN.

A very sumptuous fabric, rose tints a close second in the matter of trimmings.  
A very smart gown won't be the same recently was of Linerick lace over an accented plaid white chiffon under-robe, the face belted with ropes of chenille and tiny jet and paste jewels. The hat intended to go with this was of pale green straw. For trimming it had a single narrow orange feather.

Some very smart gowns are appearing in fine white silk moulin or mousseline de sole made with a big fabric and a much belted skirt. After all there are not many ways of making up muslin. To look well it must be made rather flatter. Severe lines are distinctly out of place.

Soft, semitransparent fabrics are least for summer and evening gown, and a most charming effect is obtained by using two or three harmonious colors in tulle or chiffon over a foundation of pale pink. A silk pink dress first veiled with a pinkish gray chiffon and again with a silver gray, gives a misty pastel effect which is both delicate and unobtrusive.

A delicate gown of sheer white mull trimmed with lace is shown in the illustration. JUDITH CHILDELL.

WHAT IS WORN.

Smart and simple Gown—Delicate Black and White. A very smart yet simple French frock is in a reversible blue cloth edged with a cream lace application outlined with black and white chenille braid. This is made in the form of a mink fastening with only Victorian buttons and finished with a black pane belt, with straps of em

broodery covering the full, rather round skirt, which barely touches the ground all round.  
In direct contrast to a costume of this sort there are some gorgeous and painted mousseline on a silk ground. Pompadour designs are of course the favorite, and their beauty is much enhanced by the addition of little coats, either in very fine old fashioned laces or some real lace. The skirts in such cases are accented plaited or knobby gored, and most of them are made with a flounce starting below the knees to give the necessary fullness.

The muslin this year are works of art, consisting of masses of tracings, shirtings, laces and even fine embroidery.  
The hat of white, coarse straw trimmed with a single feather is rich, simple and economical, for it may be worn with many gowns.

The hat in the picture is of pale pink chiffon trimmed with roses of a darker shade. JUDITH CHILDELL.

## KILLING CHRISTIANS.

Attrocity Committed by Turks. Few  
Remains of Innocent Christians. Remains  
of 430 Men Annihilated.

Malatya, Sept. 17.—(Prince) Vedat  
of Bulgaria, arriving here yesterday  
from Constantinople. A sensational  
statement was the atrocities com-  
mitted by the Turkish soldiers  
upon innocent Christians. The  
general opinion is that Adnanpasha  
will soon be entirely dispossessed  
of the Christian element.

Turkish soldiers have raided the  
estate of one of the Sultan's body-  
guards, Sedat Bey, at Sivas. They  
pillaged 500 Bulgarian houses,  
strangled four women and taken 1,  
500 sheep. About 200 refugees from  
the village of Hayk, who had  
gone to Malatya, have mysteri-  
ously disappeared. They are be-  
lieved to have been captured by  
Turks.

430 Annihilated.  
Sivas, September 17th. Sept.  
17.—An insurgent band of 430 men  
was annihilated by the Turks, Sept.  
14, between Latta and Kizilirmak.  
Grand Viceroy has the job.

Yusuf, Sept. 17.—The Foreign Of-  
fice has been informed that the For-  
eign Minister of Turkey has been  
annihilated.

## BLENHEIM COLLIERY.

Struck Opened by a Prokammer's Accident

Chatham, Sept. 17.—The accident  
at Blenheim was caused by a switch  
left open, allowing the rear end  
of the passenger train to crash into  
a loaded freight that had pulled into  
the siding to allow the express to  
pass. The rear coach of the passen-  
ger train, which was mostly occupied  
by high school and business college  
students going to their homes, was  
crushed half its length and reduced  
to splinters.

## THE MAPS FOR THE BRITISH

Attorney-General Lay the Records Before the Tribunal.

Ancient French Authority Given the Disputed Islands, Wales and Pembro, to the British, and the Portland Canal Running Down to the Sea—The Canadian Maps—American Map Shattered—Portland Canal and Ocean.

(Canadian Associated Press.)

London, Sept. 19.—When the Atlantic Boundary Tribunal assembled at 11 yesterday morning, the Attorney-General, Sir Robert Phillimore, in support of his argument that the boundary should run up Vancouver's Portland Channel, dealt with the maps submitted to the Treaty of 1825, referring first to the Russian map of 1828, which affords but little indication of the boundary. Arrowsmith's map of 1831 is partly for the British, and partly for the Russian. The French map of 1831, prepared by Rich, gives Wales Island to the British, and Pembro to the British. The French map of 1831, prepared by Rich, gives Wales Island to the British, and Pembro to the British. The French map of 1831, prepared by Rich, gives Wales Island to the British, and Pembro to the British.

A French map from the French Office of Charts in 1841 shows the land Canal running down to the sea, and the Portland Canal running down to the sea.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERTY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

There is an implication in the above motto that the world is not a perfect place, and that there is a need for improvement.

The motto is a reminder that we should strive for harmony in the things that are essential to our well-being, and for liberty in the things that are not essential.

Charity is the foundation of all good, and it is the duty of every man to be charitable to his fellow-men.

River Between St. John and

—Then Lost Their Lives—Two

Thru West Flight—Fire Caught

It Was Spread Rapidly.

St. John, N.B., Sept. 21.—The river steamer, David Weston, running between St. John and Fredericton, caught fire on her downward trip Saturday afternoon, and in an incredibly short time burned to the water's edge. Three of the passengers are dead, and many seriously injured. The cause of the fire is not known, but it is believed to have been caused by the high current and pressure of the water against the pilot house, which was the first to be struck.

The steamer was carrying a large cargo of hay and cattle, and it is supposed children playing there set it on fire. At about the same time as the boat's bow was turned for the water's edge, within three minutes the whole middle section was a mass of flames. The pilot house, which was the first to be struck, was the last to be saved. It was the only part of the steamer that was not burned.

One girl, Ella Morrill, a waitress on the boat, was the only one who escaped. She was found by the firemen, and she was the only one who was not burned. She was the only one who was not burned.

## CASE FOR UNITED STATES

Argument Centres on Russia's Title to Northwest Coast.

British said to have made no claim to Territory West of Fifty-Five Degrees and Arctic Circle. United States said to have made no claim to Territory West of Fifty-Five Degrees and Arctic Circle.

(Canadian Associated Press.) London, Sept. 25.—Mr. Watson, continuing his argument on behalf of the United States, dealt with Russia's title to the northwest coast, founded on discovery and occupation, which, he argued, was never actively questioned north of 55 degrees. Emperor Tsar's decree of 1799, asserting sovereignty down to that latitude, was undisputed by England. When in 1821 the Russian Emperor issued a further edict, claiming jurisdiction over the ocean and extending the territorial claim to the farther shore, England protested. Early in the consequent negotiations England acquiesced in Russia's sovereignty to 55 degrees.

Mr. Watson traced the progress of the early Russian coast settlements north of 60 degrees north. He admitted they were few and far between. However, he had some points on the island opposite and across the Bering strait, and some points of hunting, fishing and trading with the natives, asserting and exercising exclusive ownership thereof. During the war these were destroyed. He quoted the law of Wellington to show that in 1821 the company had not the least ink of England had any interest in those parts. In 1822 the Hudson's Bay Company asserted possession of the entire coast, and the particulars they could not show any point of occupation higher than 55 degrees north, never any portion of the coast north of 60 degrees. He quoted Sir George Simpson to show that in 1822 the company had no points of commerce on the coast as far north as 60 degrees.

He said the company had no points of commerce on the coast as far north as 60 degrees. He said the company had no points of commerce on the coast as far north as 60 degrees. He said the company had no points of commerce on the coast as far north as 60 degrees.

## THE BARRICADE

Mr. Watson devoted the afternoon sitting largely to the question of the barrier theory. He argued that the barrier theory is the interest of the Russian negotiators was the establishment of the barrier to the westward advance of British traders from the north of the British, in addition to the withdrawal of the offensive position of the Russian negotiators.

ON THE MOVE.

We have never done such a business in

WALL PAPER.

as we have this year. We have kept

the move all the time. Why?

Because we have the best assortment

of Wall Paper ever offered to the

citizens of Belleville. You know

it, too. Talk about pictures on the

wall, they are not to be compared

to our latest style of Wall Paper.

As for prices, we have knocked them

to points to suit our patrons.

## FASHION HINTS.

## Ancestral Plaited Walking Skirt.

## Knowledgeable and Pleasant.

Plaited is a delightful fabric in blue and white and black and white. For the country this may be made in simple blouse and skirt fashion, but if it

## WHITE CHAIR WAIST.

is required for catching you must resort to the tailor and avoid all imitations.

Coarse hockings and white hockings are really smart fabrics for catching and out of door sports. The prevailing white will continue far into the fall, and after white navy blue and brown are the favorite colors.

Ancestral plaited walking length skirts are among the favorites of this season. They are particularly smart in navy blue and black and white checks.

The loose three-quarter coat of double breasted cloth is the most useful part of the mountain girl's outfit.

Across many plaid skirts are being worn this year. They are made up into little skirt waist suits and trimmed with bands of plain silk.

The cut shows a waist of white crumpee trimmed with yellow lace and white silk bands.

## STREET COWNS.

## Possibilities in Brown Milled-Wool.

## Blue Lines Brown.

Yellow and white are popular shades this year, and as far as wash gowns are concerned there are great possibilities in brown milled wool with a lady bodice and a simple skirt made in at the waist and finished with a pretty shaped wide band and perhaps a suggestion of embroidery. When this is worn with a smart little stock and bow

it is a good thing.

Speaking on "Christian Socialism," in Montreal, the Rev. Mark Guy Fensholt, declared, blessed that "make the church as attractive as the public house, and without the drink, and you will do well better. Don't be so anxious to pull them poor, miserable people out of the glory of the life to some little more, because, that is Christian Socialism." Rev. Mr. Fensholt's Christianity, it may be said, is meant for this world as well as the next, but, dear wouldn't it make more sense to know of shoulder, to hear him talk like that!

**New Treatment for Cancer**

**CONSTITUTIONAL REMEDY WHICH HAS SUPERSEDED OPERATIONS.**

THE old methods of treating cancer consist of the use of the knife or by paring the tumor, while early and painful operations have been effected, and, as they only removed the surface, the cancer has been re-activated, as the indications of the disease and the pain have been increased.

THE new constitutional treatment consists of the pain and the operations, and while pleasant and harmless to the most delicate system, it is a prompt and effective way of destroying every cancer germ, and it is the only method of curing cancer, and it is the only method of curing cancer from the system.
